Those moments that define our lives, those times when we lose someone we love, or those when we realise who we really are as people. A warm, funny, heartbreaking story of growing up in the 1980s and 90s, moving cities and becoming a vet which means so much to her because she understands animals more than she does human beings. Vedika meanders through life, trying to make sense of work, friendships, love and sexuality. But when things take a turn for the worse and she realizes she might lose more than she ever bargained for, she tries to grapple with all that's gone wrong till she can learn to make her peace with the life she has.
