the crucible act 1 answers study guide: *Montana 1948* Larry Watson, 2010-08-01 The tragic tale of a Montana family ripped apart by scandal and murder: "a significant and elegant addition to the fiction of the American West" (Washington Post). In the summer of 1948, twelve-year-old David Hayden witnessed and experienced a series of cataclysmic events that would forever change the way he saw his family. The Haydens had been pillars of their small Montana town: David's father was the town sheriff; his uncle Frank was a war hero and respected doctor. But the family's solid foundation was suddenly shattered by a bombshell revelation. The Hayden's Sioux housekeeper, Marie Little Soldier, tells them that Frank has been sexually assaulting his female Indian patients for years—and that she herself was his latest victim. As the tragic fallout unravels around David, he learns that truth is not what one believes it to be, that power is abused, and that sometimes one has to choose between loyalty and justice. Winner of the Milkweed National Fiction Prize

the crucible act 1 answers study guide: Black Diggers Tom Wright, 2015

One hundred years ago, in 1914, a bullet from an assassin's gun in Sarajevo sparked a war that ignited the globe. Patriotic young men all over the world lined up to join the fight -- including hundreds of Indigenous Australians. Shunned and downtrodden in their own country -- and in fact banned by their own government from serving in the military -- Aboriginal men stepped up to enlist. Undaunted, these bold souls took up arms to defend the free world in its time of greatest need. For them, facing the horror of war on a Gallipoli beach was an escape from the shackles of racism at home, at a time when Aboriginal people stood by, segregated, unable to vote, unable to act as their children were ripped from them. When the survivors came back from the war, there was no heroes' welcome - just a shrug, and a return to drudgery and oppression. Black Diggers is the story of these men -- a story of honour and sacrifice that has been covered up and almost forgotten. Written by Tom Wright and originally directed by Wesley Enoch, Black Diggers is the culmination of painstaking research into the lives and deaths of the thousand or so Indigenous soldiers who fought for the British Commonwealth in World War I. Grand in scale and scope, it draws from in-depth interviews with the families of Black Diggers who heard the call to arms from all over Australia, as well as conversations with veterans, historians and academics. Young men will step from the blank pages of history to share their compelling stories -- and after the curtain falls, we will finally remember them.

the crucible act 1 answers study guide: *The World in a Crucible* Sally Newcomb, 2009-01-01

Geology coalesced as a discipline in the early part of the nineteenth century, with the coming together of many strands of investigation and thought. The theme of experimentation and/or instrument-aided observation is absent from most recent accounts of that time, which rely on an admixture of theory and field observations, informed by close examination of minerals. James Hutton emerged as the person who had it right with suggestion of a central heat source for Earth, while Abraham Gottlob Werner and his Neptunist supporters were derided as being blinded by overarching belief, as opposed to sober application of observed facts. However, despite several claims that Hutton had won the day, primary literature from both England and the Continent reveals that the question was by no means settled for decades after Hutton derided information derived from looking into a little crucible. This Special Paper makes the case that it was just those parameters of heat, pressure, solution, and composition discovered in the laboratory that prevented resolution of the overriding questions about rock origin.
