Riley Jenkins is in trouble. An ambitious, hardworking consultant in her late twenties, she's used to a lifetime of nearly perfect evaluations - until she gets a terrible performance review from her boss. How is that possible when Riley does everything her clients want - including answering emails 24/7 - faster than they expect it? That's precisely the problem: she's spread too thin. Despite her insane hours and attention to detail, Riley can't produce the thoughtful work her clients expect. Now she's been given thirty days to close a major deal, or she's out. Meanwhile, her personal life is also on the edge of disaster, with her boyfriend and close friends losing patience with her chronic unavailability. The last thing Riley wants, at a stressful time like this, is to attend a women's leadership retreat with some of her colleagues. But she can't get out of her commitment: a weekend in New Jersey at some silly-sounding place called Juliet's School of Possibilities. Yet before long, Riley is surprised to find herself intrigued by Juliet, the lifestyle maven who hosts the conference. How does a single mother of two run a successful business while acting as if she has all the time in the world? The answer may lie in one of Juliet's Zen-like comments: Expectations are infinite. Time is finite. You are always choosing. Choose well. By the end of this story, you'll join Riley in rethinking the balance between your present and your future, between the things you have to do and the things you want to do. Like Riley, you can free yourself from feeling overwhelmed and pursue your highest possibilities.

Anastasio, Kristen Ann Ehrenberger, Patrick Watson, Wenyi Zhang, 2021-08-03 An argument that individuals and collectives form memories by analogous processes and a case study of collective retrograde amnesia. We form individual memories by a process known as consolidation: the conversion of immediate and fleeting bits of information into a stable and accessible representation of facts and events. These memories provide a version of the past that helps us navigate the present and is critical to individual identity. In this book, Thomas Anastasio, Kristen Ann Ehrenberger, Patrick Watson, and Wenyi Zhang propose that social groups form collective memories by analogous processes. Using facts and insights from neuroscience, psychology, anthropology, and history, they describe a single process of consolidation with analogous—not merely comparable—manifestations on any level, whether brain, family, or society. They propose a three-in-one model of memory consolidation, composed of a buffer, a relator, and a generalizer, all within the consolidating entity, that can explain memory consolidation phenomena on individual and collective levels. When consolidation is disrupted by traumatic injury to a brain structure known as the hippocampus, memories in the process of being consolidated are lost. In individuals, this is known as retrograde amnesia. The authors hypothesize a social hippocampus and argue that disruption at the collective level can result in collective retrograde amnesia. They offer the Chinese Cultural Revolution (1966–1976) as an example of trauma to the social hippocampus and present evidence for the loss of recent collective memory in mainland Chinese populations that experienced the Cultural Revolution.

In *Second World, Second Sex* Kristen Ghodsee rescues some of this lost history by tracing the activism of Eastern European and African women during the 1975 United Nations International Year of Women and the

subsequent Decade for Women (1976-1985). Focusing on case studies of state socialist Bulgaria and nonaligned but socialist-leaning Zambia, Ghodsee examines the feminist networks that developed between the Second and Third Worlds and shows how alliances between socialist women challenged American women's leadership of the global women's movement. Drawing on interviews and archival research across three continents, Ghodsee argues that international ideological competition between capitalism and socialism profoundly shaped the world women inhabit today.

"Howerton writes unflinchingly about what it means to be raising children in today's world and how to liberate ourselves from the myth of perfect motherhood."—Glennon Doyle, author of *Untamed* and *Love Warrior*, founder of Together Rising In this smart and subversively funny memoir, Kristen Howerton navigates the emotional and sometimes messy waters of motherhood and challenges the idea that there's a "right" way to raise kids. Recounting her successes, trials, mishaps, and hard-won wisdom, this mother of four advocates for letting go of the expectations, the guilt, and the endless race to be the perfect parent to the perfect child in the perfect family. This book is for ● the parent who loves their kids like crazy but feels like parenting is making them crazy, too ● the parent who said "I will never . . ." and now they have ● the parent who looks like they have it all together but feels like a hot mess on the inside ● the parent who looks like a hot mess on the outside, too ● the parent who asks Am I good enough? Doing enough? Doing it right? What's wrong with me? What's wrong with these children? Are they eighteen yet? With her signature blend of vulnerability, sarcasm, and insight, Howerton shares her unexpected journey from infertility to adoption to pregnancy to divorce to dealing with the shock and awe of raising teens. As a mom of a multiracial family and as a marriage and family therapist, she tackles the thorny issues parents face today, like hard conversations about racism, disciplining other people's kids, the reality of Dad Privilege, and (never) attaining that elusive work/life balance. *Rage Against the Minivan* is a permission slip to let it go and allow yourself to be a "good enough" parent, focused on raising happy, kind, loving humans.

the kristen archives just: Scared Selfless Michelle Stevens, PhD, 2018-03-27 “A riveting memoir that takes readers on a roller coaster ride from the depths of hell to triumphant success.”—Dave Pelzer, author of *A Child Called “It”* Michelle Stevens has a photo of the exact moment her childhood was stolen from her: She’s only eight years old, posing for her mother’s boyfriend, Gary Lundquist—an elementary school teacher, neighborhood stalwart, and brutal pedophile. Later that night, Gary locks Michelle in a cage, tortures her repeatedly, and uses her to quench his voracious and deviant sexual whims. Little does she know that this will become her new reality for the next six years. Michelle can also pinpoint the moment she reconstituted the splintered pieces of her life: She’s in cap and gown, receiving her PhD in psychology—and the university’s award for best dissertation. The distance between these two points is the improbable journey from torture, loss, and mental illness to healing, recovery, and triumph that is Michelle’s powerful memoir, *Scared Selfless*. Michelle suffered from post-traumatic stress disorder, anxiety, and depression, and made multiple suicide attempts. She also developed multiple personalities. There was “Chelsey,” the rebellious teenager; “Viscous,” a tween with homicidal rage; and “Sarah,” a sweet little girl who brought her teddy bear on a first date. In this harrowing tale, Michelle, who was inspired to help others heal by becoming a psychotherapist, sheds light on the all-too-real threat of child sexual abuse, its subsequent psychological effects, and the best methods for victims to overcome their ordeals and, ultimately, thrive. *Scared Selfless* is both an examination of the extraordinary feats of the mind that are possible in the face of horrific trauma as well as Michelle’s courageous testament to their power.

the kristen archives just: Producing the Archival Body Jamie A. Lee, 2020-12-21 *Producing the Archival Body* draws on theoretical and practical research conducted within US and Canadian archives, along with critical and cultural theory, to examine the everyday lived experiences of archivists and records creators that are often overlooked during archival and media production. Expanding on the author’s previous work, which engaged archival and queer theories to develop the *Queer/ed Archival Methodology* that intervenes in traditional archival practices, the book invites readers interested in humanistic inquiry to re-consider how archives are defined, understood, deployed, and accessed to produce subjects. Arguing that archives and bodies are mutually constitutive and developing a keen focus on the body and embodiment alongside archival theory, the author introduces new understandings of archival bodies. Contributing to recent disciplinary moves that offer a more transdisciplinary emphasis, Lee interrogates how power circulates and is deployed in archival contexts in order to build critical understandings of how deeply archives influence and shape the production of knowledges and human subjectivities. *Producing the Archival Body* will be essential reading for academics and students engaged in the study of archival studies, library and information science, gender and women’s studies, anthropology, history, digital humanities, and media studies. It should also be of great interest to practitioners working in and with archives

The Psalms call it selah—the pause, rest, or interlude between the notes in a song. More than merely an empty space, selah is a chance to stop and resync with the story and song of God. For all the ways life keeps you running, this word and practice offers a way to re-center yourself on the One who holds all things together and makes all things beautiful. Stretched beyond her capacity in caring for a large family in the

middle of Manhattan, Kristen Kill was exhausted, depressed, and desperate for a change. Then something sparked within her when she read the Psalms, and found that often all that stood between the psalmist's cries for help and celebrations of praise was this simple word, *selah*. Join Kristen in *Finding Selah* for a journey that will transform the way you think about work, rest, and the little spaces in between that make all the difference. This book will show you how to tune your ear to the song God is singing over you, embrace the "selah moments" able to transform your daily rhythms, and most of all, encounter the ultimate Selah in Christ, who stands in the gap between heaven and your most hectic of days. There is hope for the dissonance you feel. *Finding Selah* will show you not only how to sing a new song, but to live a new way.

I read it greedily - and so will you' Meera Sodha, author of *Fresh India* The dinner table, among friends, is where the best conversations take place - talk about the world, religion, politics, culture, love and cooking. In the same way, *Be My Guest* is a conversation about all these things, mediated through the sharing of food. We live in a world where some have too much and others not enough, where migrants and refugees are both welcomed and vilified, and where most of us spend less and less time cooking and eating together. Priya Basil explores the meaning and limits of hospitality today, and in doing so she invites us to consider that how much we have in common may depend on what we are willing to share.

the kristen archives just: *Hark* Sam Lipsyte, 2020-01-21 An "extremely funny...brilliantly alive" (The New York Times Book Review) social satire of the highest order from bestselling author Sam Lipsyte, centered around an unwitting mindfulness guru and the phenomenon he initiates. In an

America convulsed by political upheaval, cultural discord, environmental catastrophe, and spiritual confusion, so many of us find ourselves anxious and distracted, searching desperately for peace, salvation, and—perhaps most immediately—just a little damn focus. Enter Hark Morner, a failed stand-up comic turned mindfulness guru whose revolutionary program is set to captivate the masses. But for Fraz and Tovah, a middle-aged couple slogging through a very rough patch, it may take more than the tenets of Hark's "Mental Archery" to solve the riddles of love, lust, work, and parenthood on the eve of civilizational collapse. And given the sudden power of certain fringe players, including a renegade Ivy League ethicist, a gentle Swedish kidnapper, a social media tycoon with an empire on the skids, and a mysteriously influential (but undeniably slimy) catfish, it just might be too late. But what's the point of a world, even a blasted-out post-apocalyptic world, if they don't try with all their might to keep their marriage alive? In this "awfully funny...tartly effective sendup of 21st-century America" (Star Tribune, Minneapolis) Sam Lipsyte reaches new peaks of daring in a novel that revels in contemporary absurdity and the wild poetry of everyday language while exploring the emotional truths of his characters. "Recommended reading" (Vanity Fair), in which "every line feels as thrillingly charged as a live wire" (O, The Oprah Magazine), Hark is a smart, incisive look at men, women, and children seeking meaning and dignity in a chaotic, ridiculous, and often dangerous world.
