Most Christian leaders will answer one of two ways: * I gleaned it from college and work. * I gleaned it from theological training and ministry. the foundations of christian doctrine kevin j conner: *Missional Leadership* Nelus Niemandt, 2019-12-12 The purpose and aim of this book is to develop an appropriate leadership model for missional churches. This implies a positioning of this book within the broader theology of mission and a consensus on the theology of the Missio Dei, originating at the 1952 conference of the International Missionary Council in Willingen, Germany. In this approach to the theology of mission, mission is understood as the work of the Trinitarian God, and the church is privileged to participate in God's mission. It is against this background that the growing consensus on missional ecclesiology challenges leadership models developed for a different time and a different kind of church (with less or no emphasis on the missional character of the church). The aim is to reflect theologically on the role of leadership in the missional church. What kind of ideas about power, authority and leadership are appropriate for a missional church? New missional challenges demand new ideas about missional leadership. Church organisation and leadership reflects a theological position – there is a strong relation between ecclesiology and church organisation. The nature of the church provides the framework to understand the character of the church. What the church is determines what the church does. The church organises what it does and agrees on rules that regulate ministries and organisation. Issues such as the way the church organises and governs what it does, and thus church leadership, need to be answered against this background and understanding. Church polity and organisation, as well as leadership, must reflect the identity, calling, life and order of the church. This book, therefore, addresses life in the Trinity, participation in the Missio Dei and contours of the missional church as the point of entry to develop leadership insights. It contributes towards the development of an appropriate model of leadership for missional churches, because although recent developments in the theology of mission comprehensively addressed the area of missional ecclesiology, there is a gap in the development of a leadership model based on the concept of authority in the missional church.

the foundations of christian doctrine kevin j conner: *Understanding the New Birth and the Baptism of the Holy Spirit* Kevin J. Conner, 2018-07-16 For many years, Kevin Conner (author of the best-selling *Foundations of Christian Doctrine*) had the conviction that there was a great need for a book on this subject. Many believers are easily confused when it comes to understanding the distinction between being born of the Spirit and baptized in the Spirit. Over the years, the pendulum has swung back and forth between extremes of teaching on these vital truths. Most Evangelicals believe that new birth and Holy Spirit baptism take place 'at one and the same time, whereas most Pentecostals believe that they are two distinct and separate experiences. The writer has endeavored to present a clear and balanced case study to show the difference and distinction between these two major operations of the Holy Spirit. It is hoped that this book will be of help to both groups of God's people, that all may know the glorious work of the Holy Spirit - that is, being BORN OF THE SPIRIT and BAPTIZED IN THE SPIRIT!

Frame, 2008 The third volume of Frame's *Theology of Lordship* series, this book focuses on biblical ethics. Frame surveys non-Christian ethical traditions before setting forth a solidly Christian ethical method. By clarifying biblical norms, life situations, and personal dimensions, he presents a model for decision making that honors God in all aspects of life. Discussions range from natural law and conflict of duties to detailed explorations of the Ten Commandments in connection with questions surrounding worship, the Sabbath, church and state, respect for life and truth, sexuality, and the relation of Christ to culture.

Blomberg, 2014-04-01 Challenges to the reliability of Scripture are perennial and have frequently been addressed. However, some of these challenges are noticeably more common today, and the topic is currently of particular interest among evangelicals. In this volume, highly regarded biblical scholar Craig Blomberg offers an accessible and nuanced argument for the Bible's reliability in response to the extreme views about Scripture and its authority articulated by both sides of the debate. He believes that a careful analysis of the relevant evidence shows we have reason to be more confident in the Bible than ever before. As he traces his own academic and spiritual journey, Blomberg sketches out the case for confidence in the Bible in spite of various challenges to the trustworthiness of Scripture, offering a positive, informed, and defensible approach.

the foundations of christian doctrine kevin j conner: Sports and Christianity Nick J. Watson, Andrew Parker, 2012-10-12 This interdisciplinary text examines the sports-Christianity interface from Protestant and Catholic perspectives. In addition to a systematic review of literature, field-pioneering contributors such as Michael Novak, Shirl Hoffman, Joseph Price and Robert Higgs address a wide range of topics from the sporting world, including biblical athletic metaphors, disability, evangelism, professionalism and celebrity, humility and pride, genetic enhancement technologies, stereotypes, sport as art and British and American historical analyses of sport and Christianity. Insightful chapters from Scott Kretchmar, one of the world's leading philosophers of sport, and Father Kevin Lixey, the head of the Vatican's 'Church and Sport' office (2004-), add further depth and breadth to this book, making it accessible and interesting to academic and practitioner audiences alike. Within the context of this relatively new and rapidly expanding area of

inquiry, this collection provides a unique and important addition to the current literature for both undergraduate and postgraduate students, and serves as a point of reference for scholars of theology and religious studies, psychology, health studies, ethics and sports studies. The book may also be of interest to physical educators and sports coaches who wish to adopt a more holistic and ethical approach to their work. As modern sport is often intertwined with commercial and political agendas, this book offers an important corrective to the win-at-all-costs culture of modern sport, which cannot be fully understood through secular ethical inquiry.
