the kristen archives stories: *Permission to Screw Up* Kristen Hadeed, 2017-10-10 The inspiring, unlikely, laugh-out-loud story of how one woman learned to lead-and how she ultimately succeeded, not despite her many mistakes, but because of them. This is the story of how Kristen Hadeed built Student Maid, a cleaning company where people are happy, loyal, productive, and empowered, even while they're mopping floors and scrubbing toilets. It's the story of how she went from being an almost comically inept leader to a sought-after CEO who teaches others how to lead. Hadeed unintentionally launched Student Maid while attending college ten years ago. Since then, Student Maid has employed hundreds of students and is widely recognized for its industry-leading retention rate and its culture of trust and accountability. But Kristen and her company were no overnight sensation. In fact, they were almost nothing at all. Along the way, Kristen got it wrong almost as often as she got it right. Giving out hugs instead of feedback, fixing errors instead of enforcing accountability, and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes. But Kristen's willingness to admit and learn from those mistakes helped her give her people the chance to learn from their own screwups too. *Permission to Screw Up* dismisses the idea that leaders and organizations should try to be perfect. It encourages people of all ages to go for it and learn to lead by acting, rather than waiting or thinking. Through a brutally honest and often hilarious account of her own struggles, Kristen encourages us to embrace our failures and proves that we'll be better leaders when we do.

the kristen archives stories: Full Body Burden Kristen Iversen, 2013-06-04 "An intimate and deeply human memoir that shows why we should all be concerned about nuclear safety, and the dangers of ignoring science in the name of national security."—Rebecca Skloot, #1 New York Times bestselling author of *The Immortal Life of Henrietta Lacks* A shocking account of the government's attempt to conceal the effects of the toxic waste released by a secret nuclear weapons plant in Colorado and a community's vain search for justice—soon to be a feature documentary Kristen Iversen grew up in a small Colorado town close to Rocky Flats, a secret nuclear weapons plant once designated the most contaminated site in America. *Full Body Burden* is the story of a childhood and adolescence in the shadow of the Cold War, in a landscape at once startlingly beautiful and--unknown to those who lived there--tainted with invisible yet deadly particles of plutonium. It's also a book about the destructive power of secrets--both family and government. Her father's hidden liquor bottles, the strange cancers in children in the neighborhood, the truth about what was made at Rocky Flats--best not to inquire too deeply into any of it. But as Iversen grew older, she began to ask questions and discovered some disturbing realities. Based on extensive interviews, FBI and EPA documents, and class-action testimony, this taut, beautifully written book is both captivating and unnerving.

the kristen archives stories: Juliet's School of Possibilities Laura Vanderkam, 2019-03-12 A charming, life-changing fable that will help you rethink your whole approach to time, priorities, and possibilities. Riley Jenkins is in trouble. An ambitious, hardworking consultant in her late twenties, she's used to a lifetime of nearly perfect evaluations - until she gets a terrible performance review from her boss. How is that possible when Riley does everything her clients want - including answering emails 24/7 - faster than they expect it? That's precisely the problem: she's spread too thin. Despite her insane hours and attention to detail, Riley can't produce the thoughtful work her clients expect. Now she's been given thirty days to close a major deal, or she's out. Meanwhile, her personal life is also on the edge of disaster, with her boyfriend and close friends losing patience with her chronic unavailability. The last thing Riley wants, at a stressful time like this, is to attend a women's leadership retreat with some of her colleagues. But she can't get out of her commitment: a weekend in New Jersey at some silly-sounding place called Juliet's School of Possibilities. Yet before long, Riley is surprised to find herself intrigued by Juliet, the lifestyle maven who hosts the conference. How does a single mother of two run a successful business while acting as if she has all the time in the world? The answer may lie in one of Juliet's Zen-like comments: Expectations are infinite. Time is finite. You are always choosing. Choose well. By the end of this story, you'll join Riley in rethinking the balance between your present and your future, between the things you have to do and the things you want to do. Like Riley, you can free yourself from feeling overwhelmed and pursue your highest possibilities.

the kristen archives stories: Scared Selfless Michelle Stevens, PhD, 2018-03-27 "A riveting memoir that takes readers on a roller coaster ride from the depths of hell to triumphant success."—Dave Pelzer, author of *A Child Called "It"* Michelle Stevens has a photo of the exact moment her childhood was stolen from her: She's only eight years old, posing for her mother's boyfriend, Gary Lundquist—an elementary school teacher, neighborhood stalwart, and brutal pedophile. Later that night, Gary locks Michelle in a cage, tortures her repeatedly, and uses her to quench his voracious and deviant sexual whims. Little does she know that this will become her new reality for the next six years. Michelle can also pinpoint the moment she reconstituted the splintered pieces of her life: She's in cap and gown, receiving her PhD in psychology—and the university's award for best dissertation. The distance between these two points is the improbable journey from torture, loss, and mental illness to healing, recovery, and triumph that is Michelle's powerful memoir, *Scared Selfless*. Michelle suffered from post-traumatic stress disorder, anxiety, and depression, and made multiple suicide attempts. She also developed multiple personalities. There was "Chelsey," the rebellious teenager; "Viscous," a tween with homicidal rage; and "Sarah," a sweet little girl who brought her teddy bear on a first date. In this harrowing tale, Michelle, who was inspired to help others heal by becoming a psychotherapist, sheds light on the all-too-real threat of child sexual abuse, its subsequent psychological effects, and the best methods for victims to overcome their ordeals and, ultimately, thrive. *Scared Selfless* is both an examination of the extraordinary feats of the mind that are possible in the face of horrific trauma as well as Michelle's courageous testament to their power.

the kristen archives stories: Producing the Archival Body Jamie A. Lee, 2020-12-21

Producing the Archival Body draws on theoretical and practical research conducted within US and Canadian archives, along with critical and cultural theory, to examine the everyday lived experiences of archivists and records creators that are often overlooked during archival and media production. Expanding on the author's previous work, which engaged archival and queer theories to develop the Queer/ed Archival Methodology that intervenes in traditional archival practices, the book invites readers interested in humanistic inquiry to re-consider how archives are defined, understood, deployed, and accessed to produce subjects. Arguing that archives and bodies are mutually constitutive and developing a keen focus on the body and embodiment alongside archival theory, the author introduces new understandings of archival bodies. Contributing to recent disciplinary moves that offer a more transdisciplinary emphasis, Lee interrogates how power circulates and is deployed in archival contexts in order to build critical understandings of how deeply archives influence and shape the production of knowledges and human subjectivities. Producing the Archival Body will be essential reading for academics and students engaged in the study of archival studies, library and information science, gender and women's studies, anthropology, history, digital humanities, and media studies. It should also be of great interest to practitioners working in and with archives

the kristen archives stories: *To Stop a Warlord* Shannon Sedgwick Davis, 2019 Human rights lawyer Shannon Sedgwick Davis runs the Bridgeway Foundation, whose stated mission is to end mass atrocities around the world. When she spoke to survivors of warlord Joseph Kony's brutal attacks across Central Africa, she knew she would fight to ensure every mother there had the right that she had, to sing their children to sleep at night and trust that they will be safe til morning. When nations had failed to shield families in danger, she'd come to hire a private army to protect them. Millions had been affected by the violence of the Lord's Resistance Army, led by Kony, including tens of thousands of children who had been abducted from their homes, swept into the jungles and forced to become child soldiers, never to be seen again. Guided by her faith and driven by her moral responsibility as an activist, Davis pushed tirelessly for intervention, using every contact she had in Washington, to the highest levels of the State Department—but since it wouldn't serve our national interests, the issue languished. Davis's efforts to report on the conflict and help survivors were valuable—but they were putting band-aids on bullet holes. Davis realized that to truly stand by Bridgeway's mission, they would have to become the ones they were waiting for. Davis knew she had to act, but this was uncharted territory and she feared that hiring a private army to stop the LRA might lead to more chaos. The decision weighed heavily on her heart, but when she spoke to her mentor Archbishop Desmond Tutu, he took her hand, and told her to put her fears to

the kristen archives stories: Cat Call Kristen J. Sollee, 2019-09-16 “No one writes about the subjects of sexuality, desire, the shadow, and diabolism with such relish, and when I read her words I feel both smarter and less afraid of my own ‘tabooed’ feelings and thoughts. Like a cat, Kristen sees in the dark, as she guides us gracefully forward with her vision of unapologetic, feminine power.” —From the Foreword by Pam Grossman, author of *Waking the Witch: Reflections on Women, Magic, and Power* The cat: A sensual shapeshifter. A hearth keeper, aloof, tail aloft, stalking vermin. A satanic accomplice. A beloved familiar. A social media darling. A euphemism for reproductive parts. An epithet for the weak. A knitted—and contested—hat on millions of marchers, fists in the air, pink pointed ears poking skyward. Cats and cat references are ubiquitous in art, pop culture, politics, and the occult, and throughout history, they have most often been coded female. From the “crazy cat lady” unbowed by patriarchal prescriptions to the coveted sex kitten to the dreadful crone and her yowling compatriot, feminine feline archetypes reveal the ways in which women have been revered and reviled around the world—in Greek and Egyptian mythology, the European witch trials, Japanese folklore, and contemporary film. By combining historical research, pop culture, art analyses, and original interviews, *Cat Call* explores the cat and its indivisible connection to femininity and teases out how this connection can help us better understand the relationship between myth, history, magic, womanhood in the digital age, and our beloved, clawed companions.

the kristen archives stories: The Cowkeeper's Wish Tracy Kasaboski, Kristen den Hartog, 2018-09-15 In the 1840s, a young cowkeeper and his wife arrive in London, England, having walked from coastal Wales with their cattle. They hope to escape poverty, but instead they plunge deeper into it, and the family, ensconced in one of London's “black holes,” remains mired there for generations. *The Cowkeeper's Wish* follows the couple's descendants in and out of slum housing, bleak workhouses and insane asylums, through tragic deaths, marital strife and war. Nearly a hundred years later, their great-granddaughter finds herself in an altogether different London, in southern Ontario. In *The Cowkeeper's Wish*, Kristen den Hartog and Tracy Kasaboski trace their ancestors' path to Canada, using a single family's saga to give meaningful context to a fascinating period in history—Victorian and then Edwardian England, the First World War and the Depression. Beginning with little more than enthusiasm, a collection of yellowed photographs and a family tree, the sisters scoured archives and old newspapers, tracked down streets, pubs and factories that no longer exist, and searched out secrets buried in crumbling ledgers, building on the fragments that remained of family tales. While this family story is distinct, it is also typical, and so all the more worth telling. As a working-class chronicle stitched into history, *The Cowkeeper's Wish* offers a vibrant, absorbing look at the past that will captivate genealogy enthusiasts and readers of history alike.
