Riley Jenkins is in trouble. An ambitious, hardworking consultant in her late twenties, she's used to a lifetime of nearly perfect evaluations - until she gets a terrible performance review from her boss. How is that possible when Riley does everything her clients want - including answering emails 24/7 - faster than they expect it? That's precisely the problem: she's spread too thin. Despite her insane hours and attention to detail, Riley can't produce the thoughtful work her clients expect. Now she's been given thirty days to close a major deal, or she's out. Meanwhile, her personal life is also on the edge of disaster, with her boyfriend and close friends losing patience with her chronic unavailability. The last thing Riley wants, at a stressful time like this, is to attend a women's leadership retreat with some of her colleagues. But she can't get out of her commitment: a weekend in New Jersey at some silly-sounding place called Juliet's School of Possibilities. Yet before long, Riley is surprised to find herself intrigued by Juliet, the lifestyle maven who hosts the conference. How does a single mother of two run a successful business while acting as if she has all the time in the world? The answer may lie in one of Juliet's Zen-like comments: Expectations are infinite. Time is finite. You are always choosing. Choose well. By the end of this story, you'll join Riley in rethinking the balance between your present and your future, between the things you have to do and the things you want to do. Like Riley, you can free yourself from feeling overwhelmed and pursue your highest possibilities.

the kiersten archives: The Rise of Pacific Literature Matthew Hayward, Maebh Long, 2024-09-03 In the 1960s and 1970s, the staff and students of two newly founded universities in the Pacific Islands helped foster a golden age of Oceanian literature. At the University of Papua New Guinea and the University of the South Pacific, bold experiments in curriculum design recentered literary studies around a Pacific modernity. Rejecting the established British colonial model, writer-scholars placed Pacific oratory and a growing body of Oceanian writing at the heart of the syllabus. From this local core, students ventured outward to contemporary postcolonial literatures, where they saw modernist techniques repurposed for a decolonizing world. Only then did they turn to foundational modernist texts, encountered at last as a set of creative tools rather than a canon to be copied or learned by rote. *The Rise of Pacific Literature* reveals the transformative role and radical adaptations of global modernisms in this golden age. Maebh Long and Matthew Hayward examine the reading and teaching of Pacific oral narratives, European and American modernisms, and African, Caribbean, and Indian literature, tracing how Oceanian writers appropriated and reworked key texts and techniques. They identify the local innovations and international networks that spurred Pacific literature's golden age by reading crucial works against the poetry, prose, and plays on the syllabi of the new universities. Placing internationally recognized writers such as Albert Wendt, Subramani, Konai Helu Thaman, Marjorie Crocombe, and John Kasaipwalova alongside lesser-known authors of works published in Oceanian little magazines, this book offers a wide-ranging new account of Pacific literary history that tells a fresh story about modernism's global itineraries and transformations.

the kiersten archives: The Last Woman—A Novel of Rebirth G. V. Loewen, 2020-10-30 The serpentine narrative of Kristen-Seraphim continues unabated as the youthful heroes must not only confront themselves and their past in a novel manner, but rebuild their team, half of whom are at first in utter ignorance of any of their once shared accomplishments, let alone the Earth as it is now at hand. Prepare yourself for a blistering ride that will send your imagination into orbit. But around which world? With both God and the Devil apparently merged and lost alike, the stunning relief felt by the now veteran half of the heroic community at the appearance of their comrades' successors is instantly turned to anxiety and shock as Mary discovers she is inexplicably pregnant! By whom, or by what? And then again, who, or what kind of being is now developing before their very eyes? The new Kristen struggles under the weight of the feats of her predecessor and doubts Mike's enduring love for her. Likewise, both Michelle and Kylie must come to terms with the tragic fates of their previous selves, but this too holds a bizarre twist. Yet their enemies have hardly given up. A continuous assault by anachronistic figures, the appearance of the Smythes' interdimensional siblings and impossible events that seem to stop time itself all figure to unravel the gains made by the legendary team. The most hoped for and yet dreaded moment prompts their new leader to make for herself an oddly existential sacrifice and thus set the stage for what may be the final showdown with the liminalist forces.

the kiersten archives: Permission to Screw Up Kristen Hadeed, 2017-10-10 The inspiring, unlikely, laugh-out-loud story of how one woman learned to lead—and how she ultimately succeeded, not despite her many mistakes, but because of them. This is the story of how Kristen Hadeed built Student Maid, a cleaning company where people are happy, loyal, productive, and empowered, even while they're mopping floors and scrubbing toilets. It's the story of how she went from being an almost comically inept leader to a sought-after CEO who teaches others how to lead. Hadeed unintentionally launched Student Maid while attending college ten years ago. Since then, Student Maid has employed hundreds of students and is widely recognized for its industry-leading retention

rate and its culture of trust and accountability. But Kristen and her company were no overnight sensation. In fact, they were almost nothing at all. Along the way, Kristen got it wrong almost as often as she got it right. Giving out hugs instead of feedback, fixing errors instead of enforcing accountability, and hosting parties instead of cultivating meaningful relationships were just a few of her many mistakes. But Kristen's willingness to admit and learn from those mistakes helped her give her people the chance to learn from their own screwups too. Permission to Screw Up dismisses the idea that leaders and organizations should try to be perfect. It encourages people of all ages to go for it and learn to lead by acting, rather than waiting or thinking. Through a brutally honest and often hilarious account of her own struggles, Kristen encourages us to embrace our failures and proves that we'll be better leaders when we do.

the kiersten archives: *Full Body Burden* Kristen Iversen, 2013-06-04 "An intimate and deeply human memoir that shows why we should all be concerned about nuclear safety, and the dangers of ignoring science in the name of national security."—Rebecca Skloot, #1 New York Times bestselling author of *The Immortal Life of Henrietta Lacks* A shocking account of the government's attempt to conceal the effects of the toxic waste released by a secret nuclear weapons plant in Colorado and a community's vain search for justice—soon to be a feature documentary Kristen Iversen grew up in a small Colorado town close to Rocky Flats, a secret nuclear weapons plant once designated the most contaminated site in America. *Full Body Burden* is the story of a childhood and adolescence in the shadow of the Cold War, in a landscape at once startlingly beautiful and--unknown to those who lived there--tainted with invisible yet deadly particles of plutonium. It's also a book about the destructive power of secrets--both family and government. Her father's hidden liquor bottles, the strange cancers in children in the neighborhood, the truth about what was made at Rocky Flats--best not to inquire too deeply into any of it. But as Iversen grew older, she began to ask questions and discovered some disturbing realities. Based on extensive interviews, FBI and EPA documents, and class-action testimony, this taut, beautifully written book is both captivating and unnerving.

the kiersten archives: *The Toxic Museum* Helene Tello, 2023-12-29 *The Toxic Museum* examines the use of pesticides in German museum collections at the end of the 19th and early 20th centuries. It reconstructs the research of substances against harmful insects in museum collections within the historical context of the formation of nation-states, colonialism, a strengthening chemical industry, the First World War, and the resulting broad-based hygiene movement through the lens of the Ethnologisches Museum (Ethnological Museum) in Berlin. Because of their persistence, the consequences of the use of pesticides in museum collections are now unmistakable and well

documented in many places. Numerous objects are highly contaminated and are only accessible under difficult conditions regarding occupational health and safety. This creates obstacles for conservation and scientific processing, as well as for mediation in the context of exhibitions and external loans. The most precarious and difficult situations arise when contaminated museum objects are repatriated to their countries of origin. This monograph examines contemporary challenges in the 21st century museum landscape and contextualises the history of pesticide use at the turn of the 20th century. The Toxic Museum will be of great interest to students and scholars working in conservation, museology, monument preservation, art and cultural studies, ethnology, history, and economics.

the kiersten archives: *Cat Call* Kristen J. Sollee, 2019-09-16 "No one writes about the subjects of sexuality, desire, the shadow, and diabolism with such relish, and when I read her words I feel both smarter and less afraid of my own 'tabooed' feelings and thoughts. Like a cat, Kristen sees in the dark, as she guides us gracefully forward with her vision of unapologetic, feminine power." —From the Foreword by Pam Grossman, author of *Waking the Witch: Reflections on Women, Magic, and Power* The cat: A sensual shapeshifter. A hearth keeper, aloof, tail aloft, stalking vermin. A satanic accomplice. A beloved familiar. A social media darling. A euphemism for reproductive parts. An epithet for the weak. A knitted—and contested—hat on millions of marchers, fists in the air, pink pointed ears poking skyward. Cats and cat references are ubiquitous in art, pop culture, politics, and the occult, and throughout history, they have most often been coded female. From the "crazy cat lady" unbowed by patriarchal prescriptions to the coveted sex kitten to the dreadful crone and her yowling compatriot, feminine feline archetypes reveal the ways in which women have been revered and reviled around the world—in Greek and Egyptian mythology, the European witch trials, Japanese folklore, and contemporary film. By combining historical research, pop culture, art analyses, and original interviews, *Cat Call* explores the cat and its indivisible connection to femininity and teases out how this connection can help us better understand the relationship between myth, history, magic, womanhood in the digital age, and our beloved, clawed companions.

the kiersten archives: *Media Matter* Francisca Comas Rubí, Karin Priem, Sara González Gómez, 2021-11-22 This volume discusses a broad range of themes and methodological issues around images, photography and film. It is about sharing a fascination about the visual history of education and how images became the most influential (circulating) media within the field of education on local, regional, national and international levels. Within this volume images are primarily analyzed as presenters, mediators, and means of observation. Images are seen as mobile reproducible media which play an active role within the public and educational sphere. They are means of observation and storytelling, they shape identities by presenting models of how we should act in and perceive the world, they circulate through different contexts and media, all of which impacts their meanings.

the kiersten archives: *Paper Cadavers* Kirsten Weld, 2014-03-21 In *Paper Cadavers*, an inside account of the astonishing discovery and rescue of Guatemala's secret police archives, Kirsten Weld probes the politics of memory, the wages of the Cold War, and the stakes of historical knowledge production. After Guatemala's bloody thirty-six years of civil war (1960–1996), silence and impunity reigned. That is, until 2005, when human rights investigators stumbled on the archives of the country's National Police, which, at 75 million pages, proved to be the largest trove of secret state

records ever found in Latin America. The unearthing of the archives renewed fierce debates about history, memory, and justice. In *Paper Cadavers*, Weld explores Guatemala's struggles to manage this avalanche of evidence of past war crimes, providing a firsthand look at how postwar justice activists worked to reconfigure terror archives into implements of social change. Tracing the history of the police files as they were transformed from weapons of counterinsurgency into tools for post-conflict reckoning, Weld sheds light on the country's fraught transition from war to an uneasy peace, reflecting on how societies forget and remember political violence.

the kiersten archives: *Producing the Archival Body* Jamie A. Lee, 2020-12-21 *Producing the Archival Body* draws on theoretical and practical research conducted within US and Canadian archives, along with critical and cultural theory, to examine the everyday lived experiences of archivists and records creators that are often overlooked during archival and media production. Expanding on the author's previous work, which engaged archival and queer theories to develop the Queer/ed Archival Methodology that intervenes in traditional archival practices, the book invites readers interested in humanistic inquiry to re-consider how archives are defined, understood, deployed, and accessed to produce subjects. Arguing that archives and bodies are mutually constitutive and developing a keen focus on the body and embodiment alongside archival theory, the author introduces new understandings of archival bodies. Contributing to recent disciplinary moves that offer a more transdisciplinary emphasis, Lee interrogates how power circulates and is deployed in archival contexts in order to build critical understandings of how deeply archives influence and shape the production of knowledges and human subjectivities. *Producing the Archival Body* will be essential reading for academics and students engaged in the study of archival studies, library and information science, gender and women's studies, anthropology, history, digital humanities, and media studies. It should also be of great interest to practitioners working in and with archives

the kiersten archives: *The Archive Thief* Lisa Moses Leff, 2015-06-09 In the aftermath of the Holocaust, Jewish historian Zosa Szajkowski gathered up tens of thousands of documents from Nazi buildings in Berlin, and later, public archives and private synagogues in France, and moved them all, illicitly, to New York. In *The Archive Thief*, Lisa Moses Leff reconstructs Szajkowski's story in all its ambiguity. Born into poverty in Russian Poland, Szajkowski first made his name in Paris as a communist journalist. In the late 1930s, as he saw the threats to Jewish safety rising in Europe, he broke with the party and committed himself to defending his people in a new way, as a scholar associated with the YIVO Institute for Jewish Research. Following a harrowing 1941 escape from France and U.S. army service, Szajkowski struggled to remake his life as a historian, eking out a living as a YIVO archivist in postwar New York. His scholarly output was tremendous nevertheless; he published scores of studies on French Jewish history that opened up new ways of thinking about Jewish emancipation, modernization, and the rise of modern antisemitism. But underlying Szajkowski's scholarly accomplishments were the documents he stole, moved, and eventually sold to American and Israeli research libraries, where they remain today. Part detective story, part analysis of the construction of history, *The Archive Thief* offers a window into the debates over the rightful ownership of contested Jewish archives and the powerful ideological, economic, and psychological forces that have made Jewish scholars care so deeply about preserving the remnants of their past.

the kiersten archives: Undoing Jane Doe Kristen Lewis Cunnane, 2019 Church of the Brethren missionaries trapped in a Japanese concentration camp... The Publisher For three years, a Japanese concentration camp in the Philippines was home for Church of the Brethren missionaries Edward and Helen Angeny during WW II. Their tale of replacing murdered missionaries in China in 1940 and their subsequent imprisonment was aptly written into this memoir by Helen Angeny when she was 80 years old. Their internment included hunger as well as humor, frustration as well as joy, and threats as well as miracles. It also included the birth of their first child soon after imprisonment. The story ended well for the 500 civilian internees but only after MacArthur's troops accidentally came upon this POW group which had been previously unknown to the US government. Helen Angeny's reflections as well as her soul are revealed in this thought-provoking historical narrative.

the kiersten archives: The Specter of the Archive Nicholas Popper, 2024-01-04 An exploration of the proliferation of paper in early modern Britain and its far-reaching effects on politics and society. We are used to thinking of ourselves as living in a time when more information is more available than ever before. In *The Specter of the Archive*, Nicholas Popper shows that earlier eras had to grapple with the same problem—how to deal with too much information at their fingertips. He reveals that early modern Britain was a society newly drowning in paper, a light and durable technology whose spread allowed statesmen to record drafts, memoranda, and other ephemera that might otherwise have been lost, and also made it possible for ordinary people to collect political texts. As original paperwork and copies alike flooded the government, information management became the core of politics. Focusing on two of the primary political archives of early modern England, the Tower of London Record Office and the State Paper Office, Popper traces the circulation of their materials through the government and the broader public sphere. In this early media-saturated society, we find the origins of many issues we face today: Who shapes the archive? Can we trust the pictures of the past and the present that it shows us? And, in a more politically urgent vein: Does a huge volume of widely available information (not all of it accurate) risk contributing to polarization and extremism?
