tomorrow and tomorrow and tomorrow free: *The Tomorrow Game* Sudhir Venkatesh, 2023-06-20 A New York Times bestselling author’s gripping account of a Chicago community coming together to save a group of teenagers from gun violence. In the tradition of works like *Random Family* and *Behind the Beautiful Forevers*, Sudhir Venkatesh’s *The Tomorrow Game* is a deeply reported chronicle of families surviving in a Southside Chicago community. At the heart of the story are two teenagers: Marshall Mariot, an introverted video gamer and bike rider, and Frankie Paul, who leaves foster care to direct his cousin’s drug business while he’s in prison. Frankie devises a plan to attack Marshall and his friends—it is his best chance to showcase his toughness and win respect for his crew. Catching wind of the plan, Marshall and his friends decide they must preemptively go after Frankie’s crew to defend their honor. The pressure mounts as both groups of teens race to find a gun and strike first. All the while, the community at large—a cast that includes the teens’ families, black market gun dealers, local pastors, a bodega owner, and a veteran beat cop—try their best to defuse the conflict and keep the kids alive. Based on Venkatesh’s three decades of immersion in Chicago’s Southside, and as propulsive as a novel, *The Tomorrow Game* is a nuanced, timely look at the toll that poverty and gun violence take on families and their communities.

tomorrow and tomorrow and tomorrow free: Where Are We Tomorrow? Tavi Taylor Black,

2024-08-15 Winner of the 2022 Nancy Pearl Award for Literary Fiction Tavi Black brings the reader right onto the bus with an all-access pass to the strange life that is touring. This is a riveting read and beautiful depiction of the ups and downs on the road of life. -Norah Jones, Grammy Award-winning Singer/Songwriter An often intriguing and emotional look at lives on and off the road. -Kirkus Four women working backstage on a rock tour each come to terms with being a woman in a male-dominated industry. When Alex Evans, a thirty-six-year-old touring electrician, is implicated in an accident involving the female pop star she works for, she and three other women on tour rent a house together in Tuscany. While the tour regroups, confessions are made, secrets are spilled: the guitar tech conceals a forbidden love, the production assistant's ambition knows no limits, and the personal assistant battles mental issues. Through arguments and accidents, combating drug use and religion, the women help each other look back on the choices they've made, eventually buoying each other, offering up strength to face tough decisions ahead. Where Are We Tomorrow? was a finalist in the 2021 Indie Book Awards, the NIEA Awards, the NYC Big Book Award and and a finalist in the Nicholas Schaffner Award for Music in Literature. After many tours with Tavi as our tour-manager and experiencing firsthand her humor, her thoughtfulness, her grounded-ness and her observant nature I had no doubt that she would be able to take me into the world behind the scenes of a tour in a way not many people could. If you ever wondered (just like I used to) what really happens behind those dark windows of a tour bus, or during sound-check in an empty theatre or in green rooms-all those dark and confusing alleyways and elevators away from the stage, Tavi will take you there. -Deva Premal, Singer and Grammy Award Nominee (Deva, Best New Age Album, 2018) Every so often, you find a book-against all odds-that changes the way you think. A book that you know you might not have found. Where Are We Tomorrow? is just such a book. Tavi Black has written a story about women who are ambitious, who are talented and who are free to their artistry. The main character works backstage in show business: in the dark behind the backdrop, using tools, wearing boots that protect the feet. When I was very young and still startled by the wonders of reading, I found a book that changed my understanding about how women daily contribute to saving society. Valerie Miner's novel about nurses in WWII, a novel that changed me, that I have never forgotten. Books can change your mind about life, about what work you might do, about what kinds of other 'you's might be out there, working in the world. Where Are We Tomorrow?

will change some readers, especially girls and young women who need the critical reminder that not all women wear heels.-A.J. Verdelle, Author, The Good Negress and Miss Chloe
