world of poetry poems: *Last Dream* Giovanni Pascoli, 2019-07-30 Poetry. Italian Studies. Translated by Geoffrey Brock. An essential new translation of one of Italian literature's most celebrated poets. Giovanni Pascoli stands as a towering figure at the threshold of modern Italian poetry, yet he is little known in English. He wrote his best poems in the last decade of the nineteenth century and the first few years of the twentieth, in an extraordinary burst that included his three most important collections, *Myricae*, *Canti di Castelvecchio*, and *Primi poemetti*. In this volume, translator Geoffrey Brock offers a personal anthology that conveys the wide-eyed spirit and formal beauty of the originals. This collection is a revelation. In Geoffrey Brock's impeccable versions, Pascoli becomes a poet who demands to be read out loud. Time and again I found myself stopping to savor a phrase, a line break, a rhyme, a stanza. And then reading the poem over from the start. 'The Sleep of Odysseus' is heart-stopping. It's difficult to overstate my admiration for that tact, grace, and formal imagination that shape these remarkable translations.--Clare Cavanagh A champion of childlike intuition, muted tones, and 'small things,' Pascoli has until now been confined to his corner of the map. In this personal anthology, poet and translator Geoff Brock conveys to us the best of Pascoli. His Pascoli is the author of subtle, bewitching poems that look both inward and outward, celebrating the natural world and the inner life of humble objects: kites, walking sticks, the little nests of spring. Brock has kept the rhymes and meters, and his deeply intelligent remakings breathe new life into the old idiom.--Will Schutt

In this remarkable English debut, award-winning Chinese contemporary poet Ye Lijun offers readers a lyrical diorama of nature and the inner world. By turns intimate and profound, Ye's poems in Fiona Sze-Lorrain's masterful translations make music of everyday silences, and illuminate the invisible openings in our lives. In this vital collection by one of China's essential literary voices, each encounter is an invitation, wherein a village, a nest, a telescope, or a book proves to be a transient guide to the unknown. Fiona Sze-Lorrain brings her sense of immediacy, and her lucid control of tone, to these inspired translations of Ye Lijun which capture, with unerring musicality, the rhythms of the original Chinese.--Martha Kapos Ye Lijun's quiet, powerful poems accrete from places, memories, affect, and ideas unique to the poet. The distinctiveness of Ye's diction, metaphors, and associations make her imagination and intelligence anchor in ours. We come away from Ye's mountain, her house, her books, her loves, and return to those of our own with our senses made more acute. Translator Fiona Sze-Lorrain, a gifted poet herself, creates an English-language voice for Ye Lijun that has all the grace and surprise of the original.--Thomas Moran [T]he joys revealed in *MY MOUNTAIN COUNTRY*, which bring together a selection of poems from her three books, elegantly translated by Fiona Sze-Lorrain, suggest that for an acute observer of the natural world every hour, secret or not, may become an occasion for opening, 'in clarity,' to the beloved, to nature, to the invisible--leaves and roses and flowering trees that at a moment's notice may awaken in her soul, alerting her once again to the mysterious bounty of life on earth.--Christopher Merrill

world of poetry poems: *My Letter to the World and Other Poems* Emily Dickinson, 2008-09 Presents illustrated versions of well-known poems written by one of America's most renowned poets.

world of poetry poems: *The Hatred of Poetry* Ben Lerner, 2016-06-13 No art has been denounced as often as poetry. It's even bemoaned by poets: 'I, too, dislike it,' wrote Marianne

Moore. 'Many more people agree they hate poetry,' Ben Lerner writes, 'than can agree what poetry is. I, too, dislike it and have largely organised my life around it and do not experience that as a contradiction because poetry and the hatred of poetry are inextricable in ways it is my purpose to explore.' In this inventive and lucid essay, Lerner takes the hatred of poetry as the starting point of his defence of the art. He examines poetry's greatest haters (beginning with Plato's famous claim that an ideal city had no place for poets, who would only corrupt and mislead the young) and both its greatest and worst practitioners, providing inspired close readings of Keats, Dickinson, McGonagall, Whitman and others. Throughout, he attempts to explain the noble failure at the heart of every truly great and truly horrible poem: the impulse to launch the experience of an individual into a timeless communal existence. In *The Hatred of Poetry*, Lerner has crafted an entertaining, personal, and entirely original examination of a vocation no less essential for being impossible. Readers will finish this essay exalted by Ben Lerner's love of poetry, by his apprehension of the impossible task of poetry to defeat time, and of poetry as the essence of language and meaning. Ben Lerner was born in Kansas in 1979. He has received fellowships from the Fulbright, Guggenheim, Howard and MacArthur Foundations. His first novel, *Leaving the Atocha Station*, won the 2012 Believer Book Award. His second novel, *10:04*, was a finalist for the Folio Prize and was named one of the best books of 2014 by more than a dozen major publications. He has published three poetry collections: *The Lichtenberg Figures*, *Angle of Yaw* (a finalist for the National Book Award for Poetry), and *Mean Free Path*. Lerner is a professor of English at Brooklyn College. 'This intriguing book is a defence of poetry and a defence of the denunciation of it. But in the end, it's a romance.' Australian 'Compelling and agile...Lerner shows a route to bring poetry out of godliness, to make it specific, dynamic, fertile.' Australian 'Swift and casually erudite...a vivid catalogue.' Age 'Lucid and engaging' and 'witty and wise...Lerner transcends the battles over poetry's proper provenance.' Saturday Paper 'I was intrigued by Ben Lerner's *The Hatred of Poetry*, which investigates a dislike of poetry and ends up a love letter to the form.' Australian 'Ben Lerner's essay *The Hatred of Poetry* is a quick-witted, 86-page contemplation of the nature of poetry that is nothing short of a medical breakthrough for those who experience instant disorientation at the sight of verse. Through his musings on Whitman, Keats, McGonagall, Dickinson and American poets Marianne Moore, Lerner convinces his reader that a hatred of poetry is actually necessary for its contemplation. Give this little book a whirl and you may see your loathing of poetry strangely paired with a love for it.' Good Reading

world of poetry poems: Everything I Don't Know Jerzy Ficowski, 2021-09-14 Poetry. Jewish Studies. What good luck to finally have in English the writings of the brilliant Jerzy Ficowski, the poet who lived at least seventeen lives, fighting in the Warsaw Uprising, and later traveling for years with the Roma people through the roads of Poland, opposing his government, and watching the authorities ban his poems, a poet who translated from Spanish and Romanian and Yiddish and Roma, but most of all from the tongue of silence...Beautifully translated by Jennifer Grotz and Piotr Sommer, these poems also document the tragedy of the Holocaust, with the direct and uncompromising voice with which he reminds us of the great poets such as Różewicz and Świrszczyńska, while remaining, all the while, himself. Read a piece such as 'I was unable to save / a single life' in a bookstore, and I guarantee you will want to take this book with you, to keep it for the rest of your life.--Ilya Kaminsky Thanks to these brilliant, careful, inspired translations, we can now read Jerzy Ficowski, one of Poland's best kept secrets. This book is a marvel in its weird clarity and extraordinary range of styles and subjects, from the perfectly unassuming paradox of the title, all the way through to its final poems about bumblebees and Satie and mother nature, who scratches herself and 'shudders / with a tsunami.' How fortunate we are to have the unassailable evidence that

all along, there was yet another genius of 20th century Polish poetry.--Matthew Zapruder

world of poetry poems: Can Poetry Save the Earth? John Felstiner, 2009-04-01 In forty brief and lucid chapters, Felstiner presents those voices that have most strongly spoken to and for the natural world. Poets- from the Romantics through Whitman and Dickinson to Elizabeth Bishop and Gary Snyder- have helped us envision such details as ocean winds eroding and rebuilding dunes in the same breath, wild deer freezing in our presence, and a person carving initials on a still-living stranded whale.

world of poetry poems: Poetry of the First World War Tim Kendall, 2013-10-10 The First World War produced an extraordinary flowering of poetic talent, poets whose words commemorate the conflict more personally and as enduringly as monuments in stone. Lines such as 'What passing-bells for these who die as cattle?' and 'They shall grow not old, as we that are left grow old' have come to express the feelings of a nation about the horrors and aftermath of war. This new anthology provides a definitive record of the achievements of the Great War poets. As well as offering generous selections from the celebrated soldier-poets, including Wilfred Owen, Siegfried Sassoon, Rupert Brooke, and Ivor Gurney, it also incorporates less well-known writing by civilian and women poets. Music hall and trench songs provide a further lyrical perspective on the War. A general introduction charts the history of the war poets' reception and challenges prevailing myths about the war poets' progress from idealism to bitterness. The work of each poet is prefaced with a biographical account that sets the poems in their historical context. Although the War has now passed out of living memory, its haunting of our language and culture has not been exorcised. Its poetry survives because it continues to speak to and about us.

world of poetry poems: In the Lateness of the World Carolyn Forché, 2020-03-10 FINALIST FOR THE 2021 PULITZER PRIZE FOR POETRY “An undisputed literary event.” —NPR
“History—with its construction and its destruction—is at the heart of *In the Lateness of the World*. . . In [it] one feels the poet cresting a wave—a new wave that will crash onto new lands and unexplored territories.” —Hilton Als, *The New Yorker* Over four decades, Carolyn Forché’s visionary work has reinvigorated poetry’s power to awaken the reader. Her groundbreaking poems have been testimonies, inquiries, and wonderments. They daringly map a territory where poetry asserts our inexhaustible responsibility to one another. Her first new collection in seventeen years, *In the Lateness of the World* is a tenebrous book of crossings, of migrations across oceans and borders but also between the present and the past, life and death. The world here seems to be steadily vanishing, but in the moments before the uncertain end, an illumination arrives and “there is nothing that cannot be seen.” *In the Lateness of the World* is a revelation from one of the finest poets writing today.

world of poetry poems: Origins of the Dream W. Jason Miller, 2016-03 Majestic. Grounded in astute interpretations of how speech acts function in history, this book is an exemplary model for future inquiries about the confluence of thought, poetry, and social action.--Jerry Ward Jr., coeditor of *The Cambridge History of African American Literature* A vade mecum for those interested in the cultural ingredients, the political values, and the artistic sensibilities that united Langston Hughes and Martin Luther King Jr. in spirit, thought, and outlook. Masterfully conceived, meticulously researched, and gracefully written, this book breaks new ground.--Lewis V. Baldwin, author of *There Is a Balm in Gilead: The Cultural Roots of Martin Luther King, Jr.* Archival material is spotlighted in Miller's exploration of the ways Martin Luther King Jr. enlarged the appeal of his rhetoric by using poetry in his speeches. Readers will emerge with a greater appreciation of both King and Langston Hughes.--Donna Akiba Sullivan Harper, editor of *The Later Simple Stories (The Collected Works of Langston Hughes, Volume 8)* Miller's study provides an original, engaging and provocative thesis that explores the hitherto unexplored links between two twentieth century African American icons.--John A. Kirk, editor of *Martin Luther King, Jr. and the Civil Rights Movement: Controversies and Debates* For years, some scholars have privately suspected Martin Luther King Jr.'s I Have a Dream speech was connected to Langston Hughes's poetry, and the link between the two was purposefully veiled through careful allusions in King's orations. In *Origins of the Dream*, W. Jason Miller lifts that veil to demonstrate how Hughes's revolutionary poetry became a measurable inflection in King's voice, and that the influence can be found in more than just the one famous speech. Miller contends that by employing Hughes's metaphors in his speeches, King negotiated a political climate that sought to silence the poet's subversive voice. He argues that by using allusion rather than quotation, King avoided intensifying the threats and accusations against him, while allowing the nation to unconsciously embrace the incendiary ideas behind Hughes's poetry.

world of poetry poems: As If the World Really Mattered Art Goodtimes, 2006 Art Goodtimes is legendary along the Southern Rockies as poet, performer, ritualist, Rainbow Tribe, and Green Party activist. In her introduction, deep ecologist Dolores LaChapelle describes him as part of the bardic tradition which shows us how nature and human consciousness are but different aspects of one consciousness. Bards put mind and body together within the whole of nature. In *As if the World Really Mattered*, we find poems that joyfully expound on the natural world and our relationship to it. Lyrical but root essential, Goodtimes speaks as one of the ancient storytellers--wise and sly. These poems could have been sung underground in the caves of Lascaux or atop a rock in a sacred grove. Political at heart, Goodtimes opposes the alienation of industrial culture from our interdependent life on earth. Much of his work has only been published in chapbooks, broadsides, bundles, and various ephemera. This is his first major collection. Poet Tree, as my friend Kush would say, with all its rich history/herstory, springs from storytelling. It is an art that allows us humans to speak, not just for ourselves but for the world around us in all its illusive facets--poor matchstick, poppycock, immortal diamond. For me, poetry's simplicity is its charm. No techno gimmicks, celluloid tricks. No dazzling mechanical arrays. Just voice--expressed as language, that tantalizingly accessible chameleon whose shape runs the gamut from the mundane to the divine, from the idiotic to the elegant.--from the author's Preface
