The logical choice of the time period for this work is given by Jorge Bergoglio's ascent to the chair of St. Peter until the end of 2019. youth day occasion speech: Islam and Secularism in Turkey Umut Azak, 2010-04-07 Kemal Ataturk's Republic of Turkey was set up in 1923 as a secular state, sweeping political, social, cultural and religious reforms followed. Islam was no longer the official religion of the state, the Sultanate was abolished and all Turkish citizens were declared equal without reference to religion. But though, in Azak's phrase, 'secularism was the central tenet of Kemalism', fear of a resurgent, even fanatical, Islam, continued to haunt the state. Azak's revisionist and original study sets out the struggle between religion and secularism but shows how Ataturk laboured for an idealised 'Turkish Islam' - the 'social cement' of the nation - stripped of superstition and obscurantism and linked to modern science and positivist philosophy. 'Turkish Islam' has retained its traditional forms in the modern state and Ataturk's Mausoleum dominates the capital and continues to inspire a popular, quasi-religious devotion.

Poulson, a scholar of collective action and social movements, investigates cycles of social protest in Iran from 1890 to the present era. He illuminates the following social movements: the 1890-1892 Tobacco Movement; the 1906-1909 Constitutional Revolution; two post-World War II movements, the Tudeh (Masses) and the National Front; the 1963 Qom Protest; and the 1978-1979 Iranian Revolution. These movements confronted two primary questions: How should the Iranian state achieve independence in the world and what rights should individual Iranians enjoy in their political and social system? Poulson examines the framing of these questions and their answers by various Iranian political actors over time, revealing both continuity and change.

youth day occasion speech: *Indoctrinating the Youth* Jennifer Liu, 2024-01-31 Indoctrinating the Youth examines how the Guomindang (GMD or Nationalists) sought to maintain control of middle-school students and cultivate their political loyalty over the trajectory of the Second Sino-Japanese War, Chinese Civil War, and postwar Taiwan. During the Sino-Japanese War the Nationalists managed middle-school refugee students by merging schools, publishing and distributing updated textbooks, and assisting students as they migrated to the interior with their principals and teachers. In Taiwan, the China Youth Corps (CYC) became a symbol of the regime's successful establishment. Tracing Nationalist efforts to indoctrinate ideology and martial spirit, Jennifer Liu investigates how GMD leaders Chiang Kai-shek and his son Chiang Ching-kuo tried to build support among young people in their efforts to stabilize Taiwanese society under their rule. By comparing two key youth organizations—the Three People's Principles Youth Corps in China, and the CYC on Taiwan—Liu uses education as a lens to analyze state-building in modern China. Liu's careful analysis of the inner workings of GMD youth organizations also illuminates the day-to-day operations of military training in gender-segregated upper-middle schools—including how the government selected instructors and the skills taught to students. According to Liu, mandatory military training contributed to preventing major protest against the government but the policy was not without critics. Intellectuals, parents, and students voiced their dissent at what they perceived as excessive control by a repressive government and a waste of resources interfering with academics. The government-mandated civics curriculum, including government-approved textbooks and standards, reveals the characteristics and duties GMD officials believed modern citizens of the next generation should possess. Through provisions for refugee students, youth organizations, military training, and civics classes, GMD secondary education policy played a critical role in the process of state building in both modern China and Taiwan. Skillfully combining archival work in Nanjing and Taipei, along with oral interviews with former students and CYC administrators, instructors, and members, Liu offers a unique perspective toward a balanced assessment of Nationalist Party rule.

In doing so, he demonstrates that Turkey's policy has been shaped not just by US and Soviet positions, but also by its own desire both to reinforce its Kemalist character and to 'Westernise'. The Cold War, therefore, can be seen as an opportunity for Turkey to realise its long-held goal and align itself economically and politically with the West. This book will shed new light on the Cold War and Turkey's modern diplomacy, and re-orientate existing understandings of modern Turkish identity and its diplomatic history.

youth day occasion speech: *Youth and Youth Culture in the Contemporary Middle East* Jorgen Baek Simonsen, 2005-03-01 As the analytical concept of youth gained importance, and was generally

accepted as a period with its own cultural values and norms, social scientists began to analyze how social change was linked to youth. In the Middle East, a new concept of youth already began to find its way into the region in the late 19th century, and played a role in the anti-colonialist struggle. The same concept still plays a leading role today in the way young people act in relation to traditional values, political systems, and the West. In the Arab world in general, some 50% of the total population is 18 years of age or below, which means that youth as a social group is of growing importance in the area. This also means that for decades to come Middle Eastern governments will be challenged as their young citizens demand work, a place to live, and access to enjoyable and challenging activities for the ever-expanding leisure time embedded in a modern way of life. Drawing on extensive research, which covers a wide geographical area, this volume includes, among others, articles on: Youth, History and Change in the Modern Arab World; The Discovery of Adolescence in the Middle East; Discovering the Other: Arab/Jewish Youth Encounters in Arab Films; Youth, Moral and Islamism: Spending Leisure Time with Hamas in Palestine; The Construction of Youth in Public Discourse in Turkey: A Generational Approach; and, Youth Culture and Official State Discourse in Iran. Youth and Youth Cultures in the Contemporary Middle East is a comprehensive work which describes and analyzes the forms of youth culture presently being exposed throughout the contemporary Middle East. It will appeal not only to scholars, but also to those with a general interest in Middle Eastern culture.

youth day occasion speech: **The Oxford Handbook of the History of Youth Culture** James Marten, 2023 Youth culture is not an invention of 20th-century movies and television; youth have been forming their own cultures from the moment they were given space to invent their own ways of relating to one another and to their parents and communities. Taking a global approach and beginning in early modern Europe, the essays in the Oxford Handbook of the History of Youth Culture provide broadly contextualized case studies of the ways in which the meanings and expressions of both youth and culture have evolved through time and space. The authors show that youth culture has been shaped by geography, ethnicity, class, gender, faith, technology, and myriad other factors. Examining subjects ranging from monastic schools to online communities, from enslaved youth in the Caribbean to Indigenous students at government sanctioned boarding schools, from youthful entrepreneurs to youthful activists, from war to sexuality, and from art to literature, the essays show that there have been many youth cultures. Throughout, authors emphasize the ways in which the idea of youth culture could become contested terrain-between youth and their families, their communities, and the culture at large-as well as the importance of youth agency in carving out separate lives. Among the tensions explored are the struggle between control and independence, as well as the explicit and implicit differences between male and female constructions of youth culture--

youth day occasion speech: The Anglophone Cameroon Predicament Mufor Atanga, 2011-08-25 This study explores the predicament of Anglophone Cameroon from the experiment in federation from 1961 to the political liberalisation struggles of the 1990s to challenge claims of a successful post-independence Cameroonian integration process. Focusing on the perceptions and actions of people in the Anglophone region, Atanga argues that what has come to be called the Anglophone Problem constitutes one of the severest threats to the post-colonial nation-state project in Cameroon. As a linguistic and cultural minority, Anglophone Cameroonians realised that the

Francophone-led state and government were keener in assimilation than in implementing the federal and bilingual nation agreed upon at reunification in 1960. Calls for national integration became simply a subterfuge for the assimilation of Anglophones by Francophones who dominated the state and government. The book details the various measures undertaken to exploit the Anglophone regions economy and marginalise its people. Principally the economic structures meant to facilitate self-reliant development were undermined and destroyed. Institutionalised discrimination took the form of the exclusion of Anglophones from positions of real authority, and depriving the region of any meaningful development. With the advent of multi-party politics, most Anglophone Cameroonians increasingly have made vocal demands for a return to a federation, in order to adequately guarantee their rights and recognition for them as a political and cultural minority. Actively encouraged by France, the Francophone-led regime in Cameroon has refused to yield to such demands, despite the grave danger of violent conflict and possible secession.
